## SOFTWARE TESTING AND UI/UX DESIGN

Bachelor's degree holder in Computer Science with experience in UI/UX design and almost a year of QA testing, combining a strong technical foundation with creative problem-solving skills. Proficient in reliability testing using MySQL for data verification and Postman for API testing. Authored comprehensive testing documentation and successfully conducted User Acceptance Testing (UAT) sessions with clients. Currently expanding my skill set by learning front-end development and automation testing to enhance my versatility in software development and quality assurance

---

## PROFESSIONAL EXPERIENCE

### Schinkels Teknik, JB

March 2024 - Present

#### QA Engineer

- Collaborated with six software developers to understand features, architecture, and data flow of multiple web-based applications, ensuring comprehensive and efficient testing.
- Authored detailed and comprehensive testing documentation to streamline testing processes and ensure clarity for stakeholders.
- Assisted in identifying and debugging issues reported by me and end users, improving overall software reliability.
- Performed thorough testing of application data flow using MySQL and conducted API testing with Postman to ensure seamless functionality.
- Conducted User Acceptance Testing (UAT) and provided User Training sessions at the client's headquarters to ensure smooth implementation.
- Enhanced user experience by offering detailed feedback and actionable suggestions based on extensive hands-on use of the application during testing.
- Served as the sole tester in the company, with production builds proceeding only after my final verification and approval.

### UpTech Solutions, JB

August 2023- Jan 2024

#### UI/UX and Front-End Development Internship

- Assisted in creating wireframes, mockups, and prototypes using Figma based on user requirements.
  - Designed prototypes for a whole EV Charging app, Kindergarten Management System, House Booking System, Warehouse Management System.
  - Collaborated with cross-functional teams to implement UI/UX enhancements.
  - Develop landing pages for clients by using HTML and CSS
- 

## EDUCATION

### Johore Matriculation College

Foundation in Biology and Computer Science  
Stream

### Universiti Tun Hussein Onn Malaysia (UTHM)

Bachelor Degree of Science Computer (Multimedia  
Computing) With Honors (3.11 CGPA)

---

## SKILLS & OTHERS

SQL (MySQL), Postman, Apollo, MySQL Workbench 8.0, Selenium, Javascript, React JS, HTML, CSS, C#  
Languages: Proficient in Malay and English
